

Jude Feeney

Biography

I joined Citizens Advice Gosport as a trustee last year having moved to Gosport in 2016. I have found the work both absorbing and challenging, and learned much about Gosport as a community diverse in its opportunities as well as its many issues.

I was trained as a lawyer and worked in both the City and in a local practice where I became aware of and often assisted the important role Citizens Advice had in supporting folk across the community.

My previous involvement with a London housing association and a neighbourhood council provided me with useful experience in forming and implementing strategies needed to work in vital and sometimes contentious circumstances..

My spare time interests include sailing, birding and supporting the work of the Gosport Society in helping to preserve Gosport's fascinating maritime heritage.
