

Rob holds a BA in Philosophy and an MSc in Hydrography.

His varied career includes being a scaffolder, a security guard at Silverstone and the Grand National, a mechanical fitter at Longbridge and Land Rover, a computer programmer, an accountant in Jersey, Private client Manager at RBC, a Yacht charter skipper in the Canaries, a Newquay trawler man, a Remotely Operated Vehicle pilot in Scotland, Sea Defence construction supervisor in Angola and a hydrographic surveyor in many 'non-tourist' destinations around the world.

He now leads a team delivering environmental and seabed mapping data utilising the latest cutting edge robotic equipment to a wide variety of commercial and governmental organisations. Married with twin daughters, he is passionate about equality and diversity and continues to love all things marine.
